

THERMOSTACK FLASHING

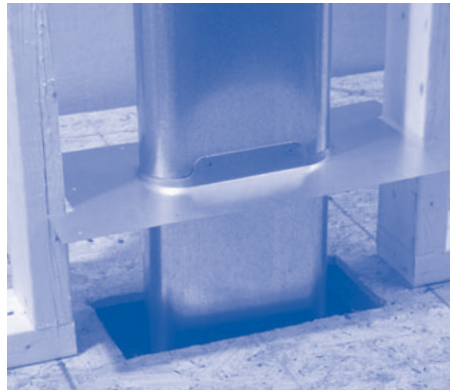

Patent Applied

STOPS AIR LEAKS - FORMS TIGHT SEAL

Precision die-cut support frames give your stacks a solid installation and a no leak seal.

Thermo Stack Flashing is the easy way to install ducts into wall cavities. The die-cut notched plate fits over the wall plate, holding the duct evenly spaced. It saves time, labor and money, and gives your HVAC installations that extra professional touch.

Order Thermo Stack Flashing today... and give your installation "The Thermo Advantage."

- A Low-Cost Thermo Solution
- Pre-punched screw holes
- Seven sizes available in 26 gage steel
- Gives your installations a professional edge
- Installation? If It's Thermo - It's Easy!
